Dashboard did not have assign supplier

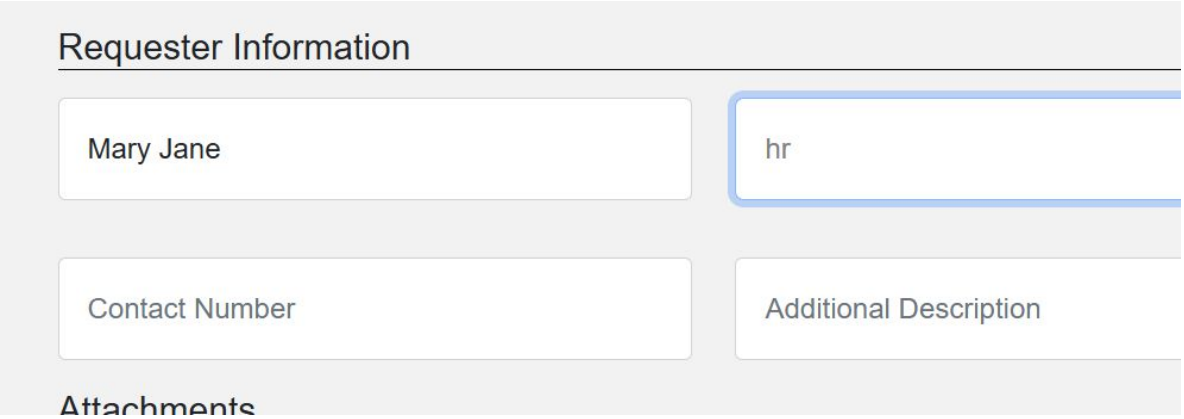
In the front end the intake form is different

There is no edit category

I cannot type here. If I do not have typing option it will not let me write. It does not have edit category, so that I c
Add magnifying glass rather than drop down

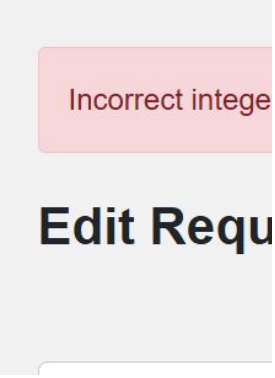
For Intake management dashboard--put initiate process in place of
Once the process starts..it should be visible contract dashboard and

May 19-

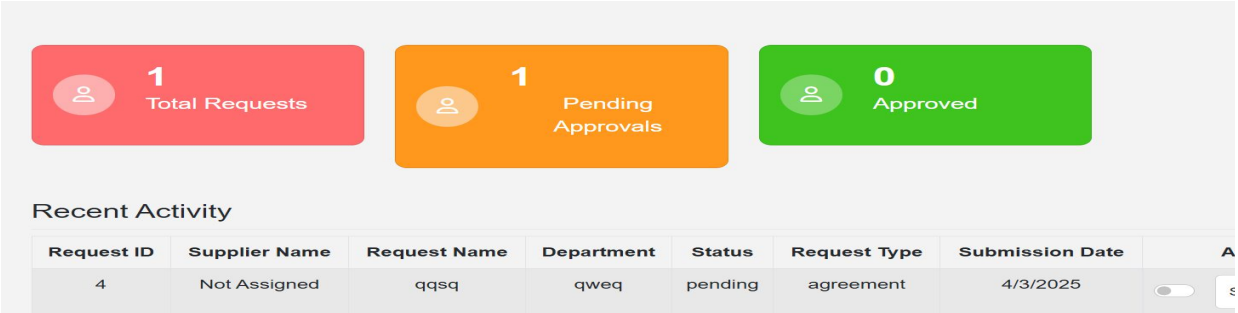


May-27

workflow is not visible when I initiate the proess	not done
Cannot edit the form fully	not done

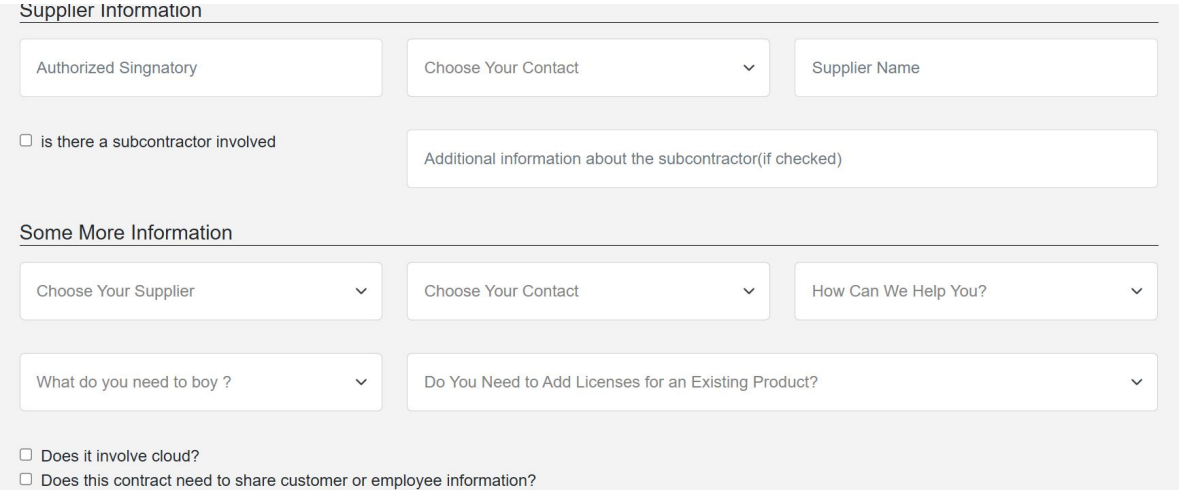


VS



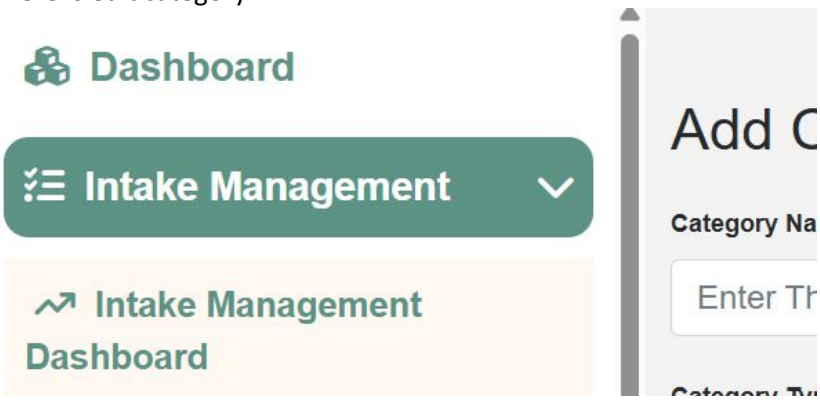
Back end the form looks different , it has assign supplier. Change assign supplier to --Initiate process

In back end the form is different. It has additional information

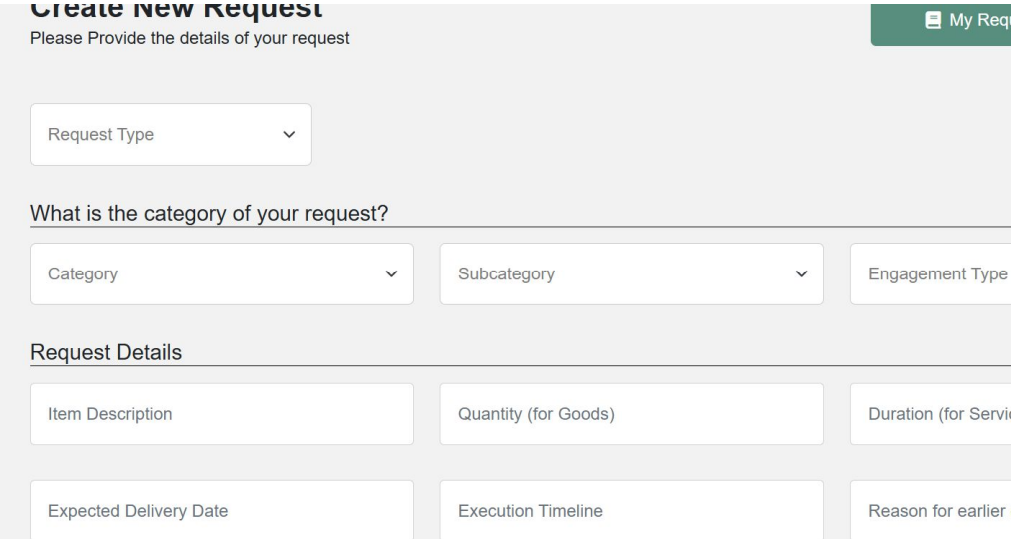


It should have supplier name - Done
Put RFP/CCompetive bid as a check box under supplier info -not done can be put in additiona
Add RFP under category request Not done
Put cloud and customer infor under more info Done
Do you need to add licenses for an existing product done
Remove quantity as mandatory field Not done
Make Department manual Not done
request..add project name

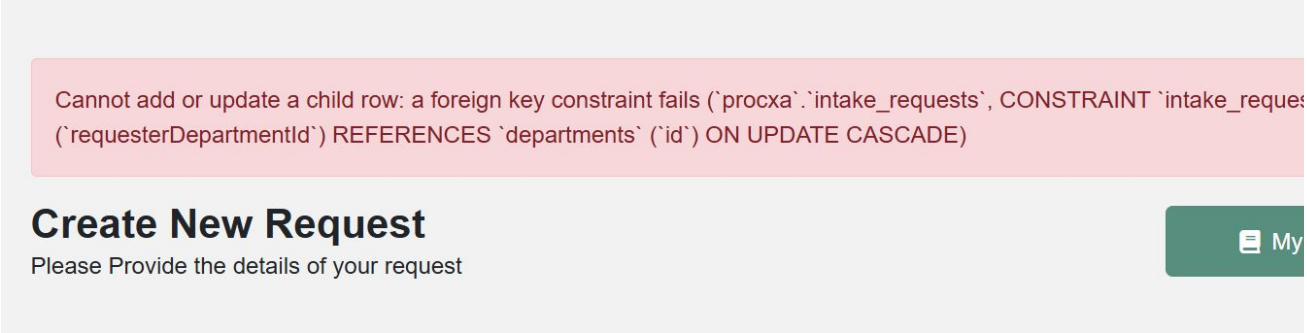
There is edit category



:an edit the category



Lets change expected delivery date to Start date and end date



If I do not fill info properly, I get this. What are the mandatory info? Why the warning msg is not clear

Do you we should remove cost saving opportunity and keep that option to Procurement professional. Have one s

Status.

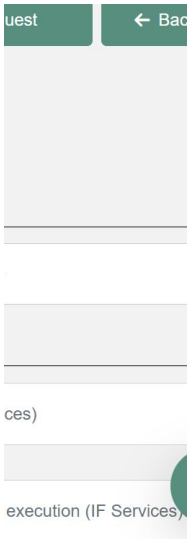
- Done

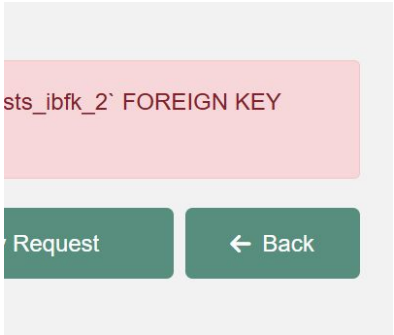
Initiate process- not done (Apr 15)

Form still not done(Apr 15)

Cloud and employee/customer info not done (Apr 15) - Done

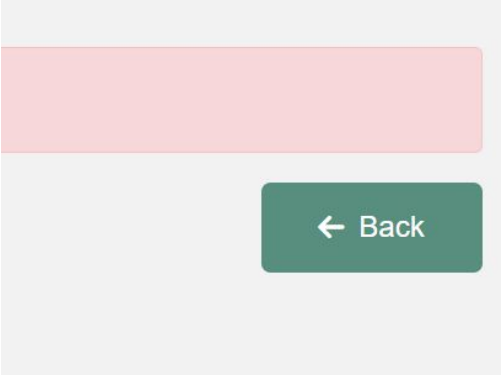
al description



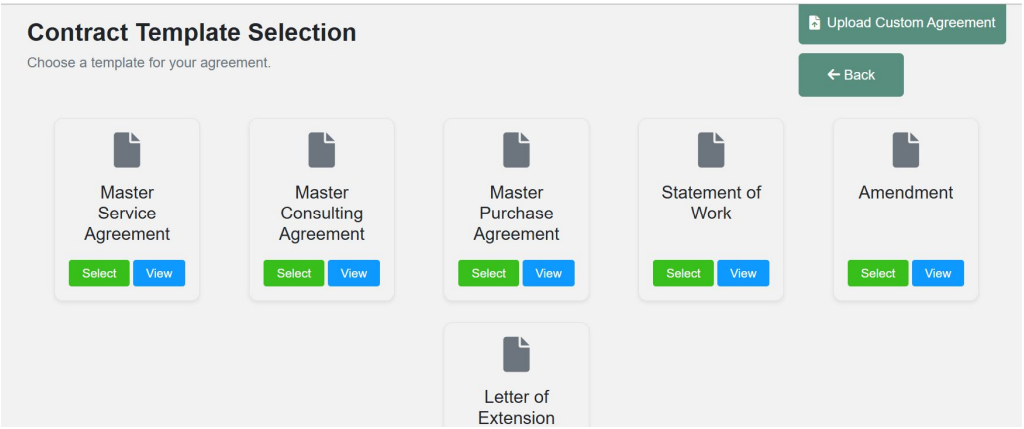


single form with drop down

ıt - new dept cannot be added Do it deom dept management



Front end



Have upload option in each of them (Apr 15 not done yet)

Netlifly link--https://procxa-ai1.netlify.app/

Upload

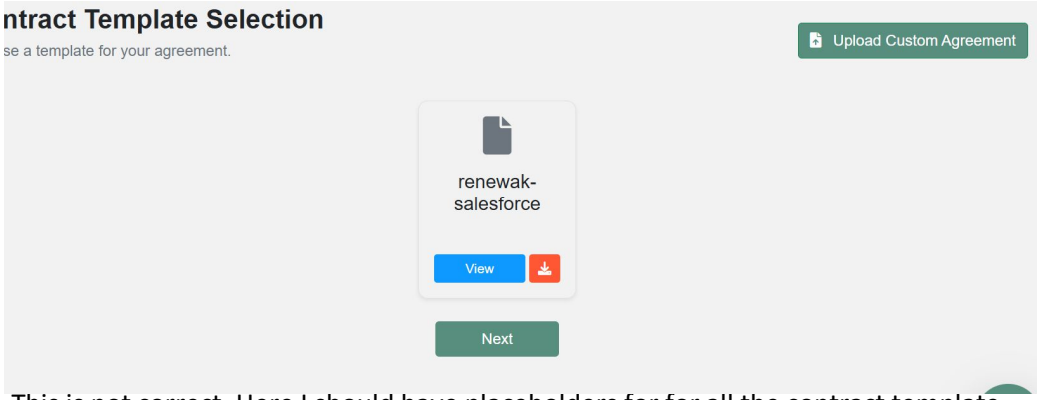
May 19-

View, delete, upload, c

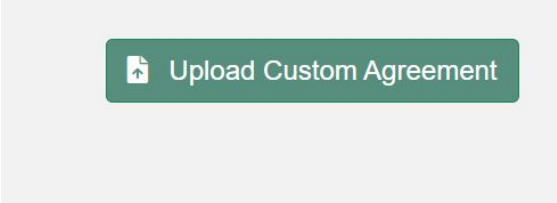
I cannot see the document- Not done

Renewal and amendment in rene

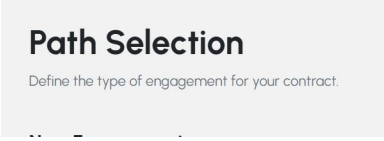
Back end



This is not correct. Here I should have placeholders for for all the contract template
This salesforce contract should connect with the project it has



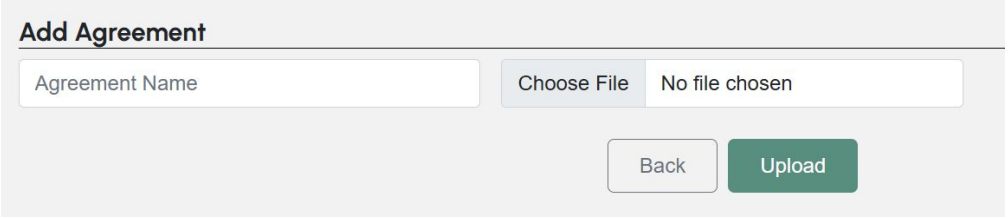
vs



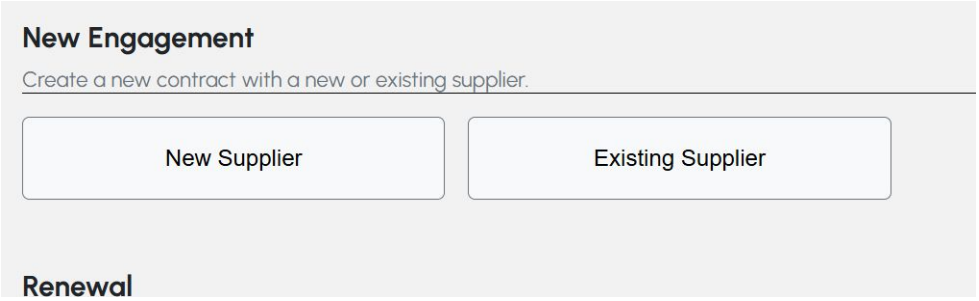
Have select, update and delete option for upload custom
Which contract id we are talking about Not done

Rather than Extend/amend..lets have SOW/amend

Upload custome agreement



Add another button here caleed path selection and in that it should have



Renew or amend an existing contract with a current supplier.

Extend/Amend Existing Contract | Letter of Extension

Change the name from Extend/amend existing contract to ----SOW/amend existing contract Its not butt
For existing supplier--put drop down and manual entry

Once initiate process it should be visible in Contract dashboard and in renewal dashboard if it is a renewal

download, select - Not done

Contract Template Selection

Choose a template for your agreement.

Upload Custom A
